# SHAPERS NOTES

FROM SIC FOUNDER AND DESIGNER/SHAPER MARK RAAPHORST

Since 2005 it has been my passion to help our SIC team-riders ascend to the top of the podium. Call it pride but I looked at it as a satisfying return on my personal investment and life's work. The hours spent on the water, in the shaping bay and pushing the factory crew to build that next world-class shape has been well worth it. Juggling acceleration, maneuverability, speed, stability and aesthetics has made SIC a brand not only for the elite racer, but for the recreational paddler looking for a five star experience. I am competitive by nature so I've often thought that being #1 was most important. Yet after 10 years, victory now has an expanded context beyond the podium. A remark on the beach from a paddler telling me they've just had the ride of their life now gives me just as much satisfaction. I want every person who rides a SIC board to have the ride of their life; whether that paddle is done on an ocean inlet, riding a fetch across the lake, on a river with an inflatable, or a paddle in the surf.

Fortunately, the SIC R&D center is located on Maui Hawaii, which offers a climate where we can test year-around and in all conditions. From calm and glassy, to crazy wind driven swell and rolling surf, Maui has it all and has proven to be the ultimate testing and proving grounds.

I first hand shape and test many iterations of our design concepts. In addition to our elite team of athletes many of the locals on the island are some of the best watermen and women in the world and they too help to put our products through the paces.

After a winning shape is achieved the design team and myself put the shapes into the computer (CAD) so that our factory can replicate the final shape with absolute accuracy, symmetry, and to the last detail in the build schedules. By doing so consumers around the world can then ride and enjoy the exact same shapes and proven designs that we develop.

A relentless drive to create best-in-class products that offer Five Star Performance is what got SIC to where it is today. We continue to enjoy that ride. I am sure you will as well.

Aloha and mahalo for your Kokua.

*Mark Raaphorst*

- Mark

# **SIC MISSION: FIVE STAR PERFORMANCE**

Five Star Performance is our commitment to the SIC experience on and off the water. Five star performance means best-in-class products, service and technology. It touches everything we do. Whether you are chasing podiums, looking to achieve your personal best or just want to have a better day on the water; SIC is committed to delivering the best that paddling can offer, for any condition, discipline and for paddlers of every ability level.

# PROGRESSION

Progression: "A development or a movement toward a destination or a more advanced state, gradually and in stages." We mark our time at SIC by the ability to look back on our accomplishments and our desire to shape new experiences. It's no easy feat to lead the pack. There are always competitors on your heels but this is what drives us forward... makes us better, faster. It takes relentless dedication and passion. As a brand it is a commitment to product innovation, tried and tested design and superior quality that gives the brand its competitive edge and its differential advantage. All of this is all-for-not if a person does not connect with the brand values, believes in its products and who is an advocate for your brand. We can put designs on water and athletes on the podium, but in the end it is our fellow paddlers that put us on the map. 2016 will be a game changer. SIC is back with another killer product lineup and ready to turn heads, elevate and redefine your paddling experience.

## NEW FOR 2016

**RACE:** With the heart of a flat water charger and the mind of an open water champion, the new FX crossover boards marry the best of the X and Bullet series. Born from our pro team's feedback and today's multi-discipline courses; the FX Pro screams on flat water, eats through cross chop, and handles its business in downwind conditions. It is the go anywhere, do anything, crossover race board for variable conditions like the Carolina Cup, or for someone who wants a fitness or touring board that can handle whatever Mother Earth can churn up.

**SURF:** The surf range has been expanded to offer even more versatility for any condition and rider sizes. By popular demand we have brought back the Carve series in an 8.6 and 9.4. This hard driving, low rocker short board has a pulled in pintail that is fast rail-to-rail and can hold a high line on a steep face. It's the go to board for when the surf turns on. We've also added a new 9.11 in the Bully series to complement its big brother the Bully 10.6. These boards are steeped in fun and maneuverability with larger average volumes and widths for riders looking for more stability in the lineup. However, this board, with its performance outline, is not a pig... it's a true performer. The Bully is not just for the big guys anymore!

**INFLATABLE:** The Air Glide Series has been 100% redesigned from the water up. You'll see streamlined rails, outlines, and rocker profiles which make the boards lighter while increasing stiffness at a lower psi. The 2016 collection has been lightened by 25% on average and has maintained its overall stiffness through its unique stringer technologies like the new DST (Dyneema Stringer Technology). This gives the boards the same stiffness at 15 psi as they had previously with 20 psi. We have introduced an inflatable version of our best selling X Pro-Lite and Bullet 14. The boards come with a premium carrying backpack and top-end models offer a rolling backpack. SIC inflatables will set the new industry standard in design, execution and performance.

**ENTRY LEVEL:** Last but not least, SIC is introducing a new standard in durability and function for rental fleets. The FLOW series boards are also designed and constructed to serve the demands of the resort and rental markets. Our composite boards feature a full wrap of Innegra™ from rail-to-rail and tip-to-tail. It is sandwiched in between multiple layers of glass in our GCI and FCI constructions. The Innegra™ provides a nearly indestructible layer of strength that ensures your boards stay on the water and out of the ding repair shop. All boards come with FCS(TM) Connect fins for fast removal and easy low stack storage. The same shapes are also offered in inflatable with SST (Stringer Support Technology). Take your pick or mix and match as you see fit.

**PADDLES:** Paddles have been completely revamped featuring EVA wrapped ergonomic handles, oval tapered shafts, powerful and highly efficient blade shapes. The new aesthetics and finish quality gives the paddles a clean, high value finish and the construction and materials provide purpose built performance characteristics. The new Flow paddles features the patented LeverLock™ adjustable shaft design and are offered in 2 and 3 piece shafts. We are also introducing 2 high quality adjustable kids paddles to round out the range for the whole family.

# SIC TEAM...FAMILY...HUI...

At SIC family comes first, and winning second. None of it would be possible without the circle of friends and athletes that defines SIC. This community or Hui is what gives the SIC brand its face, its personality and its soul. The team provides priceless feedback that is essential to the design process. Working very closely with our founder Mark Raaphorst, every team member has contributed in some way to the design of the boards gliding under your feet. SIC consists of some of the most respected athletes in the world that have conquered every discipline of the sport.

The Global team includes Lina Augaitis, Sonni Honscheid, Andrea Moller, Georges Cronsteadt, Jeremy Riggs, Livio Menelau and Kenny Kaneko. SIC also boasts an array of National team riders that represent the spirit of the brand in every continent with the likes of Devin Blish, Thomas Buddy Jr and new-comers like Morgan Hoesterey and Garrit Barth. But it's our Ambassadors like Mark Raaphorst and Scott Trudon that set the glide in motion early on and carry the SIC stoke to this day.

# SIC TECHNOLOGY

# FAST

## FOOT ACTUATED STEERING TECHNOLOGY

The mission with the ALL NEW and patented F.A.S.T. (Foot Actuated Steering Technology) was to revolutionize the same steering that SIC created in the beginning. The new system is focused on durability, reliability, serviceability, and flexibility. It features a hot-swappable tiller arm that can quickly and easily be swapped for goofy or regular footed paddlers. To improve the safety features we minimized the mechanical components, changed cables to push-rods and added multiple fail-over systems should you encounter a problem with the system on the beach or at sea. Of course it also needed to perform as well or better than the original system, which is hard to do, however, after more than 2.5 years of development we confident that exceeded all of the key design and performance requirements. We are stoked and sure you will be too.

## F.A.S.T. MODELS

**BULLET-17.4, BULLET 14.0 V2, F-16.0**

1. LOW PROFILE, HIGH QUALITY POLYCARBONATE TILLER ARM WITH EVA FOAM PADDING FOR GRIP AND COMFORT
2. PUSH-ROD CONTROLLED STEERING COMES PRE INSTALLED
3. CANTILEVER C-SPRING CONTROLLED TILLER ARM
4. PUSH-RODS CAN BE HARVESTED AND REPLACED IN THE EVENT OF FAILURE = REDUNDANT SAFETY FAIL OVER
5. DUMMY TILLER CUP CAN BE SWITCHED WITH ACTIVE TILLER IN MINUTES TO CHANGE FROM REGULAR TO GOOFY FOOTED PADDLERS
6. NEW RUDDER CUP DESIGN INTERNALIZES ALL STEERING MECHANISMS FOR A CLEANER DECK SURFACE AND ASSISTANCE IN ALIGNMENT
7. RUDDER LOCK OFF SWITCH OPTION OR SAFETY FAILOVER
8. DAGGER RUDDER EQUIPPED
9. U.S. FINBOX ACCEPTS F.A.S.T STEERING DAGGER FIN OR TRADITIONAL, FIXED WEEDLESS FIN

# DOUBLE CARBON COMPOSITE + INNEGRA™ TECHNOLOGY

DCC MODELS + INNEGRA™: BULLET 17.4 WITH F.A.S.T. STEERING

1. FULL WRAP UNI-DIRECTIONAL CARBON FIBER + FULL WRAP BIAXIAL CARBON FIBER
2. INNEGRA™ TIP, RAIL AND TAIL REINFORCEMENT
3. 2-LAYERS BIAXIAL GLASS RAIL REINFORCEMENT
4. LIGHT WEIGHT CNC/EPS CORE
5. GORE TEX BREATHER VENT
6. 3MM PVC DECK REINFORCEMENT

7. CROCODILE TEXTURED EVA DECK PAD
8. ERGO UNDERCUT CARRYING HANDLE

# SINGLE CARBON COMPOSITE + INNEGRA™ TECHNOLOGY

SCC MODELS + INNEGRA™: BULLET-12.6, BULLET-14.0, BULLET-14.0 V2, F-16.0, X-12.6, X-14.0, X-12.6 PRO, X-14.0 PRO, X-12.6 PRO-LITE, X-14 PRO-LITE, FX PRO 12.6, FX PRO 14.0

1. FULL WRAP BIAXIAL CARBON FIBER
2. INNEGRA™ TIP, RAIL AND TAIL REINFORCEMENT
3. 2-LAYERS BIAXIAL GLASS RAIL REINFORCEMENT
4. 3MM HIGH DENSITY PVC DECK REINFORCEMENT
5. CROCODILE TEXTURED EVA DECK PAD

6. EZ-GRAB CARRYING HANDLE
7. LIGHT WEIGHT CNC/EPS CORE
8. GORE-TEX BREATHER VENT

# TUFF-WOOD CARBON / TUFF-WOOD TECHNOLOGY

**TWC MODELS:** X 12.6, X 14.0, BULLET 11.0, BULLET 12.6, BULLET 14.0  
**TW MODELS:** RECON 9.9, RECON 10.4, RECON 11.4, RECON 11.11

- 1. MOLDED BIAXIAL GLASS COMPOSITE
- 2. UNI-DIRECTIONAL CARBON RAIL STIFFENING/REINFORCEMENT (ON TWC)
- 3. REINFORCED TUFF-WOOD DECK
- 4. LIGHT WEIGHT/MOLDED EPS CORE
- 5. GORE-TEX BREATHER VENT
- 6. EZ-GRAB CARRYING HANDLE

# GLASS COMPOSITE TECHNOLOGY

**GC MODELS:** FISH 7.11, FISH 8.8, FISH 9.5, CARVE 8.6, CARVE 9.4,  
BULLY 9.11, BULLY 10.6, FX 11.0 FUTURE PRO, F-12.0, F-14.0

- 1. DOUBLE WRAP FIBERGLASS COMPOSITE  
INNEGRA™ TIP, RAIL AND TAIL REINFORCEMENT ON SELECT MODELS
- 2. REINFORCED TUFF-WOOD DECK (F12, F14, HAVE PVC)
- 3. LIGHT WEIGHT CNC/EPS CORE
- 4. DIAMOND GROOVED EVA DECK PAD  
(CROCODILE TEXTURED EVA DECK PAD F-14)
- 5. GORE-TEX BREATHER VENT
- 6. ERGO UNDERCUT CARRYING HANDLE

# DST DYNEEMA STRINGER TECHNOLOGY

DST MODELS: RECON 10.4 AG, RECON 11.4 AG, X-12.6 AG, X-12.6 PRO-LITE AG, BULLET 14 AG,

1. ULTRA DURABLE PVC TARPULIN SINGLE SKIN WITH UV PROTECTION (DSC)
2. HIGH TENSILE/PRESSURE DROP STITCH FIBERS (DSC)
3. DYNEEMA STRINGER TECHNOLOGY (DST)  
(STRINGER SUPPORT TECHNOLOGY ON ALL FLOW AIR GLIDE MODELS)
4. DOUBLE REINFORCED RAIL CONSTRUCTION (SEAMS)
5. DIAMOND GROOVED EVA DECK PAD
6. HIGH PRESSURE AIR VALVE
7. STAINLESS STEEL SURF LEASH LOOP
8. CARGO NET
9. AIR-GLIDE HANDLE

**AIR-GLIDE BOARDS COME WITH FCS CONNECT 9.0" TOOL-LESS SINGLE FIN**  
Snap in, snap out....It's that easy and fast.

## AIR-GLIDE BAG | ACCESSORIES

1. WHEELED BACKPACK FOR EASY TRANSPORT AND STORAGE.
2. TWO STAGE PUMP - DUAL ACTION TO INFLATE / SINGLE ACTION FOR HIGH PSI (10 PSI MIN. TO 15 PSI MAX)
3. PATCH KIT
4. COIL LEASH (8'X 7MM)

# BULLET & F SERIES

BULLET 11.0, BULLET 12.6, BULLET 14.0, BULLET 14.0V2, BULLET 14.0V2 W/F.A.S.T, BULLET 17.4 W/F.A.S.T., F 12.0, F 14.0, F 16.0 W/F.A.S.T

The Bullet and F series feature a planing hull design with rounded, high volume rails. These boards offer tremendous stability to deal with rough swell conditions. While the Bullet series has a slightly lower nose rocker than the F series, both mitigate purling in the troughs by utilizing a chiselled pintail to drop the tail and raise the nose. The tail rocker also provides maximum control and surfability when catching a glide. The cockpit features a lightly contoured shape to increase control, minimize foot cramping and encourage water drainage. Our all new, game changing **F.A.S.T.** (Foot Actuated Steering Technology) steering turns these boards into a touring, open ocean, downwinder's dream.

While the larger Bullet and F series boards are known for their channel crossing capabilities, the lessons learned from these boards make them extremely versatile for maximum enjoyment in an infinite array of conditions. They excel at all-around fitness, touring and even chasing small kine surf. The Bullet 11.0, 12.6 and 14.0 are perfect for paddling the harbor, out to the open ocean for some bumps and then back to the beach break for some fun down the line action. The F series is inspired by the Bullets but are offered in wider widths for larger paddlers who want to enjoy the glide with unprecedented stability. If you are looking to get into downwind paddling or just looking for a great board to get a workout then the F series will give you the confidence to go beyond your comfort zone.

**BULLET 17.4 AND 14.0V2** - These boards are the fastest, most versatile and winning open ocean / downwind boards in the world. If you are looking to catch glides and win downwind races then there is simply no other choice for you.

**Bullet 11, Bullet 12.6, Bullet 14** - These boards are your best choice for maximum stability, versatility and glide over a traditional surf outline. If you are a recreational paddler who spends most of your time paddling the harbor, lake or open water, then get on the mountain bike of the water.

**F 16, F 14 and F 12 WIDE GLIDE** - The predecessor to the Bullet series, these boards are fast, stable and forgiving. They are the most seaworthy and stable of the open ocean / touring boards . They are perfect for the larger paddler or a paddler who is looking for the performance and comfort of a BMW 7 series in their paddle board.

## BULLET 11.0

**ALL-ROUND FITNESS / TOURING / DOWNWIND**

The Bullet 11.0 is truly a one of a kind board in the 11 foot range. Derived from its larger Bullet series counterparts, this board is the ideal companion for the lightweight paddlers who are looking for an all-round board. Due to its lightweight and EZ-Grab handle, it is easy to load on and off the car for transport. The main focus lies on recreational fitness paddling. Regardless of your intended use: flat-water fitness, open ocean gliding or small wave surfing, there is no better board in the world that covers all these disciplines as well as the Bullet 11.0.

### CONSTRUCTIONS & SPECS

TWC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
TUFF-WOOD CARBON	11'0"	28.25"	4.88"	209L	26lbs
	335.3cm	71.8cm	12.4cm		11.8kgs (+/- 10%)

### FINS & FEATURES

Tough Wood Carbon (TWC) molded construction with wood reinforced deck, carbon reinforced/stiffening rail wrap for an extremely strong yet lively feel under foot. croc skin EVA deck pad, cargo net, U.S. standard finbox / 12K Carbon Weedless 7.0" fin, Gore-Tex breather valve, EZ-Grab handle, single surf leash plug

## BULLET 12.6

**ALL-ROUND FITNESS / TOURING / DOWNWIND**

The Bullet 12.6 has taken on its own identity in the world of SUP. A scaled down version of the Bullet 14, this board is the mountain bike of the water. Whether looking for a board that glides with ease around the harbor or you want to catch some bumps in the open ocean or lake, the Bullet 12 is for you. The Bullet 12 can often be seen in local surf lineups on smaller days, as this board can do it all. This makes it perhaps, the most well rounded board in the world. If you don't want to have multiple boards in your quiver then you want the Bullet 12.6.

### CONSTRUCTIONS & SPECS

TWC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
TUFF-WOOD CARBON	12'6"	28.25"	6.22"	237L	29lbs
	381.0cm	71.8cm	15.8cm		13.4kgs (+/- 10%)

GEAR OF THE  
YEAR AWARD!

## BULLET 14.0

ALL-ROUND FITNESS / TOURING / DOWNWIND

The Bullet 14.0 is one of the most winning downwind boards in the world. This master of open water has also proven to be one of the most versatile fitness and touring boards in our line. With slightly more rocker and volume than the Bullet 14V2, this board is more stable and forgiving than its flatter rockered counterpart, the V2. The additional rocker allows the board to fit nicely into the wave troughs and maneuver with ease on the face. It is less likely to pearl its nose in the gangliest of conditions and makes beach landings in pounding shore break negotiable. The full volume rails and rail tuck give the board more glide and stability with ease over slop and side chop.

### CONSTRUCTIONS & SPECS

TWC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
TUFF-WOOD CARBON	14'0"	27.25"	6.42"	275L	31.5lbs
	426.7cm	69.2cm	16.3cm		14.3kgs (+/- 10%)

### FINN & FEATURES

Tough Wood Carbon (TWC) molded construction with wood reinforced deck, carbon reinforced/stiffening rail wrap for an extremely strong yet lively feel under foot, croc skin EVA deck pad, U.S. standard finbox / 12K Carbon Weedless 7.0" fin, Gore-Tex breather valve, EZ-Grab handle, single surf leash plug

## BULLET 14.0v2

FITNESS / TOURING / DOWNWIND / RACE

The Bullet 14.0 V2 is the ultimate downwind racing machine. **This board is offered with and without the SIC F.A.S.T. Steering.** The outline's widest point has been shifted slightly forward and the rocker flattened, which provides the rider with better stability when powering up in lower wind ranges and smaller chop. You would think that straighter rocker would cause the board to pearl easily, however, the narrowed tail brings the nose up, mitigating purling and unlocking top end speed by reducing wetted surface area. The board has slightly lower volume than the Bullet 14 TWC, but maintains its iconic full volume rails and gradual tuck to promote stability, which incidentally also reduces paddler fatigue over long races or touring distances.

### CONSTRUCTIONS & SPECS

SCC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
Single Carbon Composite	14'0"	27.25"	6.73"	269L	27lbs
INNEGRA	426.7cm	69.2cm	17.1cm		12.4kgs (+/- 10%)

### FINN & FEATURES

Single Carbon Composite (SCC) full wrap biaxial carbon, Innegra™ tip, rail and tail reinforcement, F.A.S.T Steering / 3K Carbon Dagger fin 8.0", PVC reinforced deck for the ultimate in strength, weight and stiffness, croc skin EVA deck pad, U.S. standard finbox / 12K Carbon Weedless 7.0" fin or with Gore-Tex breather valve, EZ-Grab handle, single surf leash plug

## BULLET 17.4

TOURING / DOWNWIND / RACE

The Bullet 17.4 is the fastest open water board on the planet bar none. It is THE must have board for any open-water elite racer who wants to strike the podium or is serious about their glide. This downwind missile has a narrower outline and more gradual rocker, which keeps you in the energy zone of the swell, maintains the highest average speed, and can maneuver quickly to catch bumps from any direction. Its Panel-V tail design keeps the nose elevated in the troughs and in the chop.

ONLY AVAILABLE WITH F.A.S.T. STEERING

### CONSTRUCTIONS & SPECS

DCC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
Double Carbon Composite *INNEGRA*	17'4" 528.3CM	26.6" 67.6CM	7.17" 18.2CM	370L	34.5Lbs 15.6KGS (+/- 10%)

\*FAST= (FOOT ACTUATED STEERING TECHNOLOGY)

### FINS & FEATURES

Double Carbon Composite (DCC) full wrap biaxial carbon and full wrap uni-directional carbon, Innegra™ tip, rail and tail reinforcement, PVC reinforced deck for the ultimate in strength, weight and stiffness. croc skin EVA deck pad, F.A.S.T Steering / 3K carbon Dagger fin 8.0", Gore-Tex breather valve, EZ-Grab handle, single surf leash plug, paddle carrying loops

## F 12.0 NEW FOR 2016!

ALL-ROUND FITNESS / TOURING / DOWNWIND

The F 12.0 is the new younger sibling in the F Series of boards. It's built on the same premise of stability, glide and fun. The 12.0 is perfect for the female or smaller male paddler, but its generous volume makes it accessible to a wide range of paddlers and abilities especially where variable conditions of water exist such as open ocean or downwinding. Rail-to-rail stability means enhanced glide with reduced effort. You just may find yourself smoking your friends on flat water too!

### CONSTRUCTIONS & SPECS

GC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
GLASS COMPOSITE	12'0" 365.7CM	30.0" 76.2CM	6.10" 15.5CM	265L	24Lbs 10.7KGS (+/- 10%)

### FINS & FEATURES

Glass Composite (GC) construction with wood reinforced deck for the best strength to weight and flex characteristics. The board comes equipped with croc skin EVA deck pad, 12K carbon Weedless 7.0" fin, Leash plug, Gore-Tex breather valve, and surf leash plug

## F 14.0

### ALL-ROUND FITNESS / TOURING / DOWNWIND

The F 14.0 offers more volume and stability without sacrificing performance. The wider mid-point and widened tail enables the paddlers to put power behind their stroke and mitigate power loss often associated with rail-to-rail instability. The rocker profile is derived from the new Bullet 14.0 V2, which makes the board quick to plane and prolongs the glide. The F 14.0 was designed for the larger bodied paddler who is looking for more stability. It's multi-purpose fitness, down-winding and touring hull design makes this board a crowd pleaser. Make no mistake, if you want to feel confident and secure in all conditions, the F 14.0 will give you confidence in the open water like no other.

#### CONSTRUCTIONS & SPECS

GC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
GLASS COMPOSITE	14'0"	30.0"	6.10"	298L	35Lbs 15.8kgs (+/- 10%)
	426.7cm	76.2cm	15.5cm		

#### FINS & FEATURES

Glass Composite (GC) construction with wood reinforced deck for the best strength to weight and flex characteristics. The board comes equipped with croc skin EVA deck pad, 12K carbon Weedless 8.3" fin, Leash plug, Gore-Tex breather valve, and surf leash plug

## F 16.0

### TOURING / DOWNWIND / RACE

The F 16.0 was one of the original boards that helped to put SIC on the map and into the annals of open water racing history. The F 16.0 has won more victories in its class than any other board in the world with the possible exception of its successor, the Bullet 17.4. Fast, forgiving, stable, and fun; the F 16.0 has become an icon and timeless classic for racing, touring and all around open water paddle enthusiasts. Its full rails provide tremendous rail-to-rail stability and make battling cross-chop and steep troughs a breeze. The rocker profile and pronounced nose eliminates purling in tighter interval swell. Still actively raced today and a favorite of elite and recreational paddlers alike, this open ocean machine still holds its own.

#### CONSTRUCTIONS & SPECS

SCC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
GLASS COMPOSITE * INNEGRA	16'0"	27.25"	7.17"	323L	33Lbs 15kgs (+/- 10%)
	487.7cm	69.2cm	18.2cm		

#### FINS & FEATURES

Single Carbon Composite (SCC) full wrap biaxial carbon, Innegra™ tip, rail and tail reinforcement, F.A.S.T Steering / 3K carbon Dagger fin 8.0", PVC reinforced deck for the ultimate in strength, weight and stiffness. croc skin EVA deck pad, Gore-Tex breather valve, Ergo undercut handle and single surf leash plugs, paddle carrying loops

# X AND FX SERIES

X-12.6, X-14.0, X-12.6 PRO, X-14.0 PRO, X-12.6 PRO LITE, X-14.0 PRO LITE, FX-11 FUTURE PRO, FX-12.6, FX-14

---

The X series boards feature a wave piercing bow, displacement hull and a highly efficient “2-phase” rocker-line that keeps the X series boards in glide mode between strokes. Full rails encourage stability so the rider can put his energy into the power-zone of the stroke rather than wasting precious energy to maintain balance. Sharp rails at the tail shear water for drag reduction and unleash nearly unlimited top-end speed.

The new FX is quickly becoming a crowd pleaser given its enhanced stability, speed and glide. It features a ground breaking, crossover hull design that excels in variable water and race conditions. We’ve designed a more voluminous and bulbous nose with an accelerated nose rocker to mitigate purling. The tail of the FX is slightly wider and rails are more full to encourage stability in bumpier conditions. Welcome to the podium club.

All X and FX Series boards feature an ergonomic cockpit, comfortable crocodile textured deck pad and an SIC proprietary EZ-Grab Handle. We have also upgraded the durability by incorporating a layer of Innegra in the tip, tail and rails of the boards. The PRO models come with a removable race handle.

---

**X-12 / X-14** - The standard SIC X series boards are the perfect race, fitness and touring boards for the entry level to recreational expert paddler who wants a board to get in shape and stay ahead of your friends or the pack at your local race. The X is the perfect blend of speed and stability.

**X-12 PRO / X-14 PRO** - These are the ultimate race boards for expert and elite race paddlers who want the fastest boards on the water for both inland waters, open ocean course and distance paddling / racing. These boards are not designed for recreational use unless the paddler has very good balance and is a skilled paddler.

**X-12 PRO-LITE / X-14 PRO-LITE** - This board is for the absolute lightweight elite and/or junior racer looking for the fastest board on the water.

**NEW FOR 2016: FX 11.0 Future Pro / FX 12.6 / FX 14.0** -The FX-Series is a result of rider feedback. The FX shines in all conditions. We’ve seen an evolution in races that incorporate flat water, open ocean and surf. Therefore, the FX is designed to be the premier crossover race board. We are super stoked to introduce the FX 11 Future Pro for the lightweight youth paddlers who strive to be at the front of the pack or just have a blast blazing their local scene.

## X 12.6

ALL AROUND / FLAT-WATER / TOURING / RACE

If you want a fast all around fitness/race board that has a bit more width for added stability then the X-12 is your board. Stability means you can paddle further with less fatigue. Stability is also the key to SIC boards winning pedigree as founder/shaper Mark Raaphorst's design philosophy is: You are fastest when standing on your board rather than lying in the water next to it. The wave piercing bow and dual zone rocker offer low drag in "displacement mode" while in calm waters and is stable when in "planing mode" in choppy, off wind conditions. Sharp rails at the tail shear water to maximize speed.

### CONSTRUCTIONS & SPECS

TWC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
TUFF-WOOD CARBON	12'6"	29.50"	6.77"	266L	32LBS

Single Carbon Composite (SCC) full wrap biaxial carbon, Innegra™ tip, rail and tail reinforcement, PVC reinforced deck for the ultimate in strength, weight and stiffness. Tough Wood Carbon (TWC) molded construction with wood reinforced deck, carbon reinforced/stiffening rail wrap for an extremely strong yet lively feel under foot or Each equipped with croc skin EVA deck pad, cargo net, U.S. standard finbox / 12K Carbon Weedless 7.0" fin, Gore-Tex breather valve, EZ-Grab handle, single surf leash plug

## X 14.0

ALL AROUND / FLAT-WATER / TOURING / RACE

**WINNER OF THE 2013 MEN'S JOURNAL GEAR OF THE YEAR!** A fast and stable fitness/race board that is always ready to for all excursions and exercises. This 14 foot beauty offers added stability especially for larger paddlers due to its higher volume and comfortable width. The displacement bow cuts like a knife through flat-water and chop. The flatter rocker-line keeps the board in glide mode between strokes and lets you step back onto the second phase of the rocker so you can take off like a rocket. Sharp rails at the tail shear water for unlimited high-end speed in the open range.

### CONSTRUCTIONS & SPECS

## X12.6 PRO

FLAT-WATER / TOURING / RACE

SIC has taken feedback from some of the best paddlers in the world and molded it into the X-Pro Series boards. If you paddle in glassy lakes or sheltered bays, then this electrifying board will be stable enough for most advanced paddlers who have good balance. Keep in mind that conditions are rarely flat, smooth or glassy, especially in a race or if you are trailing the pack. Elite paddlers have exceptional balance and can handle narrower boards in an effort to maximize their turning agility, acceleration and top-end speed. The SIC team is no exception and they have been winning races around the globe on these boards. Grab yourself a board and paddle like a pro. You will then understand a part of their secret.

### CONSTRUCTIONS & SPECS

SCC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
Single Carbon Composite *INNEGRA	12'6" 381cm	26.0" 66.0cm	7.0" 17.78cm	230L	22LBS 10kgs (+/- 10%)

### FINS & FEATURES

Single Carbon Composite (SCC) full wrap biaxial carbon, Innegra™ tip, rail and tail reinforcement, PVC reinforced deck for the ultimate in strength, weight and stiffness. croc skin EVA deck pad, U.S. standard finbox / 12K Carbon Weedless 7.0" fin, Gore-Tex breather valve, EZ-Grab handle, single surf leash plug, removable race handle

## X12.6 PRO-LITE

FLAT-WATER / TOURING / RACE

Lina Augaitis, Georges Cronsteadt wanted the fastest board possible for races that are in protected waters like the Abu Dhabi and Lost Mills races, so Mark designed the X-12 PRO-LITE. This board is for the most elite, lighter weight male and female paddlers and for serious youth paddlers who want the winning edge. Because the board is 24.6"/62.5cm narrow, the bottom cross sections were redesigned so side-to-side stability was maintained to the fullest. Both tail rocker and deck drainage were optimized. The board comes stock with the EZ-Grab handle and removable race handle for beach starts. The X-12 PRO-LITE is a hyper fast and agile, pure flat water racing board.

### CONSTRUCTIONS & SPECS

SCC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
Single Carbon Composite *INNEGRA	12'6" 381cm	24.63" 62.6cm	7.0" 17.78cm	208L	21LBS 9.3kgs (+/- 10%)

### FINS & FEATURES

## X14.0 PRO

FLAT-WATER / TOURING / RACE

Like the X-12 Pro, the X-14 is built for speed over stability. Whether racing in the Elite 14-foot or unlimited class, course or distance racing, the X-14 is best-in-class. The X-14 PRO's progressive waterline provides a lively feel, which leads to quicker acceleration getting on glide faster and staying on glide longer. The narrower shape makes for a faster, more agile, pure race board for the Elite racer.

### CONSTRUCTIONS & SPECS

SCC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
Single Carbon Composite * INNEGRA™	14'0"	26.0"	7.0"	253L	24Lbs
	426.7cm	66.0cm	17.78cm		11kgs (+/- 10%)

PVC reinforced deck for the ultimate in strength, weight and stiffness. croc skin EVA deck pad, U.S. standard finbox / 12K Carbon Weedless 8.3" fin, Gore-Tex breather valve, EZ-Grab handle, single surf leash plug, removable race handle

## X14.0 PRO-LITE

FLAT-WATER / TOURING / RACE

This board is 24.0"/61.0cm wide. The additional length gives the X-14' PRO-LITE a sleeker outline while preserving stability. The 14' PRO-LITE gives racers like Lina Augaitis, Georges Cronsteadt and Sonni Honscheid unmatched acceleration, unrivaled top end speed and maximum glide. Augaitis became the fastest women paddler on earth at the 2014 Lost Mills contest in Germany. The bottom cross sections allow the racer to get up to top speed quicker and stay at your top speed longer with less effort. The piercing bow design and missile like outline mean the board will continue to accelerate the harder you stroke. The new X-14' PRO-LITE is designed to put Elite racer ahead of the pack and on top of the podium.

### CONSTRUCTIONS & SPECS

SCC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT

PVC reinforced deck for the ultimate in strength, weight and stiffness. croc skin EVA deck pad, U.S. standard finbox / 12K Carbon Weedless 8.3" fin, Gore-Tex breather valve, EZ-Grab handle, single surf leash plug, removable race handle

## FX12.6 PRO NEW FOR 2016!

FLAT-WATER | OPEN WATER | TOURING | RACE

The FX-12.6 is the result of hours of rider feedback and refinement from Lina Augaitis, Georges Cronsteadt and Sonni Honscheid. We were on a mission to create the ultimate cross-over open water race board for today's mixed condition races. We started with the race lines of the X-Series and added more volume and rocker to the bow to chew through cross chop. Next we rounded out the rails to slice through side winds and flattened the deck for getting in and out of surf. We increased the flat stabilizing section of the bottom and then spent more hours on water tweaking until we got it right. The end result is one of the most versatile crossover boards on the market. Fast, technical and able to handle a variety of water conditions. When you can only bring one board with you to do it all, this your new best option.

### CONSTRUCTIONS & SPECS

SCC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
<small>SINGLE CARBON COMPOSITE *INNEGRA</small>	12'6"	25.50"	7.75"	265L	22Lbs

### FINS & FEATURES

Single Carbon Composite (SCC) full wrap biaxial carbon, Innegra™ tip, rail and tail reinforcement, PVC reinforced deck for the ultimate in strength, weight and stiffness, croc skin EVA deck pad, U.S. standard finbox / 12K Carbon Weedless 7.0" fin, Gore-Tex breather valve, EZ-Grab handle, single surf leash plug, removable race handle

## FX14.0 PRO NEW FOR 2016!

FLAT-WATER | OPEN WATER | TOURING | RACE

A few years ago we set out to dominate flat water race with the addition of the X-Series race boards. It evolved to the X Pro and the X Pro-Lite to meet the demands and feedback of our world class riders. The FX-14.0 is the next chapter in our race series. Derived from concept of the X-Series, the FX builds on those fast water lines with more bow volume, a more forgiving rocker, a flattened out deck and a more forgiving and stabilizing bottom section. The result? The fastest, most versatile race board on the planet.

### CONSTRUCTIONS & SPECS

SCC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
<small>SINGLE CARBON COMPOSITE *INNEGRA</small>	14'0"	25.0"	7.75"	290L	24Lbs
	426.7cm	63.6cm	19.7cm		11kgs (+/- 10%)

### FINS & FEATURES

Single Carbon Composite (SCC) full wrap biaxial carbon, Innegra™ tip, rail and tail reinforcement, PVC reinforced deck for the ultimate in strength, weight and stiffness, croc skin EVA deck pad, U.S. standard finbox / 12K Carbon Weedless 8.3" fin, Gore-Tex breather valve, EZ-Grab handle, single surf leash plug, removable race handle

# SIC YOUTH

Here at SIC, we take Ohana seriously and as with any Ohana, we put an emphasis on supporting the youth movement. We have created an assortment of product geared specifically to the younger paddler that uses the same design features as our adult product. If you have a grom that is interested in downwinding, racing, or even just getting out on the water for the first time, there is a board and a paddle in our line specifically for them. As the competitive nature of youth races has taken off, we have built more sophisticated product to meet the demand. It will not be long now before the new generation of paddlers are standing on the podium.

### BOLT 65 2 PC ADJ

**YOUTH**

#### SHAFT

100% Carbon shaft • 2-piece adjustable • 15.75" of adjustability • round shaft • clamp lock for adjustability

#### GRIP

Lightweight composite • Bladder molded • youth specific grip

#### BLADE

100% biax carbon wet-lam • 11 degree blade sweep for optimal catch/power • foiled to minimize turbulence, providing the smoothest entry/exit possible • curved tip and concave power face for a quick catch • Blades offered in one size: 65 square inches

### GLIDE 65 2 PC ADJ

**YOUTH**

#### SHAFT

100% Glass shaft • 2-piece adjustable • 15.75" of adjustability • round shaft • clamp lock for adjustability

#### GRIP

Lightweight composite • bladder molded • youth specific grip

#### BLADE

100% biax glass wet-lam • youth specific blade • 11 degree blade sweep for optimal power • Foiled to minimize turbulence, providing the smoothest entry/exit possible • curved tip and concave power face for a quick catch • Blades offered in one size: 65 square inches

## FX11.0 NEW FOR 2016! FUTURE PRO

**OPEN WATER | RACE**

The FX-11.0 Future Pro is the board for tomorrow's pros...delivered today! We took the FX design principals and scaled them down into an elite youth race board. It utilizes the same increased bow volume and forgiving rocker line as the adult models. We've reinforced the impact zones with bamboo on the deck and bottom as well we added 360 degrees of Innegra™ ensuring this board will take a licking and keep on ripping. It will not only be super fast but it will also last for the next sibling in line for youth racing.

#### CONSTRUCTIONS & SPECS

GC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
GLASS CARBON • INNEGRA™	11'0"	24.0"	6.75"	195L	22LBS
	335cm	61.0cm	17.1cm		10KGS (+/- 10%)

#### FINS & FEATURES

Glass Carbon with full Innegra™ reinforcement top, bottom and rails, deck and bottom bamboo wood sandwich, for the ultimate in strength and durability, croc skin EVA deck pad, U.S. standard finbox / 12K Carbon Weedless 7.0" fin, Gore-Tex breather valve, EZ-Grab handle, single surf leash plug, removable race handle

# SURF SERIES

FISH 7.11, FISH 8.8, FISH 9.5, CARVE 8.6, CARVE 9.4, BULLY 9.11, BULLY 10.6, RECON 9.9, RECON 10.4, RECON 11.4, RECON 11.11, REX 10.6,

The Fish, Carve, Bully, Recon and REX series boards cover a range that will hit every wave condition, rider size, style and ability. Quick to drop into small to mid sized waves or for those looking to catch the big one, the 2016 surf range from SIC can cover your quiver. If you are looking for a forgiving nose rocker, responsive tail rocker, boards that offer stability, carve-ability or something for the Big Kahuna, look no further. Dressed out with premium diamond grooved EVA deck pads and 12K carbon fins, SIC's surf collection is like no other on the market.

The SIC range of SUP Surf Boards are perfect for the intermediate to recreational expert SUP Surfer looking for a high performance SUP Surfboard in a size and shape for rifling barrels or lazy summer rollers. SIC prides itself on building boards people can grow into and not grow out of.

**FISH** - No catch and release here because once you ride a FISH, you will never want to throw it back. These boards are fast, fun and super maneuverable. The increased width means you can get through the impact zone with ease. After all, it is all about riding the wave with style and not a competition to see who can balance longest without falling in. Save your energy for shredding with the SIC FISH.

**CARVE** - The heart of a rhino chaser with the nimble nature of a jackrabbit, the CARVE was built to run with unprecedented agility and maneuverability. This low rocker short board will give you an easy entry and the pulled in pin tail means it will hold on steeper waves with fast rail-to-rail action. When the conditions get some size, it's time to get on the CARVE.

**BULLY** - Big guys get a bad wrap sometimes because people think they are always pushing their weight around. Well, the BULLY is a tribute to all the BULLIES in the lineup. SIC believes waves are for anyone who wants to drop in, big or small. The BULLY has all the stability you need without sacrificing maneuverability. The quick draw from the wide point to the pintail means that you can carve a bottom turn again like a grom. If your a lighter rider who simply likes stability and to kick-out and stomp the end of your ride then get ready to look like a hero.

**RECON** - The RECON series are for the surfer who likes to get on the wave early and work the wave for every last drop of fun. The full nose makes it easy to get on waves with less power. The outline, rocker and tail make a for a board that is fast, maneuverable and can hang in almost anything the ocean can throw your way. If you also like to breakout of the surf and cruise the coastline or harbor, then the RECON series boards are just what you are looking for. The RECON 11.11. Is also great for fitness, touring and downwind runs. It also meets the 12.0 foot and under rule for racing in the surf class.

**REX** - The REX is in line for the throne. "The REX" (which means The KING) is our new go anywhere, do anything all around board. With its generous volume, progressive lines and contours, this everyday driver is fast down the line because of its trimming waterlines. Step back on the 2 + 1 fin set up and let the bottom turns rip. The U.S. finbox and FCS side bites means you can experiment with you fin setup based on the conditions. If surf is not your style, this board has the volume to take you anywhere you want to go.

## FISH 7.11

ALL-ROUND SURF

The FISH 7.11 has proven to be one of the most versatile surf designs when a swell hits the shore. With a flat rocker, full nose, straight outline shape and wide swallowtail, the Fish 7.11 is super stable in the lineup and as fun as it gets for small to mid size waves. The swallowtail provides the needed rail drive and sensitivity for maximum control through your turns. The waterline leaves you with good speed down the line and carries its speed through tricky maneuvers in all conditions. Don't be deceived by the retro design, as these fish are the modern day rippers.

### CONSTRUCTIONS & SPECS

GC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
GLASS COMPOSITE	7'11"	29.75"	3.74"	100L	16.5Lbs
	241.3cm	75.6cm	9.5cm		7.47KGS (+/- 10%)

### FINS & FEATURES

Featuring a durable Glass Composite (GC) construction with wood reinforced deck for the best strength to weight and flex characteristics. The board comes equipped with diamond grooved EVA deck pad, FCS Fusion compatible / 12K Carbon Three/Four XL (quad/thruater) fin set, Gore-Tex breather valve, Ergo undercut handle and dual surf leash plugs Leash plugs

## FISH 8.8

ALL-ROUND SURF

The FISH 8.8 is one of the big brothers to the FISH 7.11 and the underling to the FISH 9.5. Geared towards a small to mid-size rider who paddles in small to large surf, if you charge then you will be "in charge" on the FISH 8.8. The board is surprisingly stable for its length due to its fish outline and wide swallowtail. No wave is the same and every break is different so the FISH 8.8 is your Swiss Army Knife for the waves. It can carve up anything!

### CONSTRUCTIONS & SPECS

GC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
GLASS COMPOSITE	8'8"	29.75"	3.78"	111L	18.3Lbs
	264.2cm	75.6cm	9.6cm		8.3KGS (+/- 10%)

### FINS & FEATURES

Featuring a durable Glass Composite (GC) construction with wood reinforced deck for the best strength to weight and flex characteristics. The board comes equipped with diamond grooved EVA deck pad, FCS Fusion compatible / 12K Carbon Three/Four XL (quad/thruater) fin set, Gore-Tex breather valve, Ergo undercut handle and dual surf leash plugs Leash plugs

## FISH 9.5

ALL-ROUND SURF

The FISH 9.5 was designed for the 190 lbs/86 kg plus surfer in mind. Its extra volume helps paddle through the shore break and into the lineup. If you demand performance in the waves but don't want to be sinking up to their neck while they wait in the lineup then this board is your weapon of choice. This Fish crushes in any size surf and excels in mid to larger kine waves. This FISH will fillet waves for lighter paddlers who like stability and maneuverability on small to mid size waves as well.

### CONSTRUCTIONS & SPECS

GC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
<small>GLASS COMPOSITE</small>	9'5"	29.63"	4.25"	145L	21.4Lbs
	287.0cm	75.2cm	10.8cm		9.7kgs (+/- 10%)

### FINS & FEATURES

Durable Glass Composite (GC) construction with wood reinforced deck for the best strength to weight and flex characteristics. The board comes equipped with diamond grooved EVA deck pad, FCS Fusion compatible / 12K Carbon Three/Four XL (quad/thruater) fin set, Gore-Tex breather valve, Ergo undercut handle and dual surf leash plugs

## REX 10.6

NEW FOR 2016!

ALL-ROUND FITNESS / TOURING / SURF

The REX is in line for the throne. "The REX" (Latin for KING) is our new go anywhere, do anything all around SUP surf design. With its generous volume, and a wider mid width than the Recon 10.4, the REX is fast down the line and extremely maneuverable due to its progressive shaping and trimming waterlines. Step back on the 2+1 fin set up and let the bottom turns rip. If shredding waves is only part of the plan then cruise this all around shape around the harbor and meet your REGINA (Latin for Queen)

### CONSTRUCTIONS & SPECS

GC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
<small>GLASS COMPOSITE</small>	10'6"	32.0"	4.5"	180L	25Lbs
<small>GLASS COMPOSITE</small>	320.0cm	81.3cm	11.4cm		11.3kgs (+/- 10%)

### FINS & FEATURES

Durable Glass Composite (GC) construction with *Innegra™* reinforced tip, rails and tail, wood reinforced deck to dampen the ride and resist heel denting, diamond grooved EVA deck pad, main fin plus FCS Fusion compatible / 12K Carbon 2+1 fin set, Gore-Tex breather valve, Ergo undercut handle and dual surf leash plugs

**NEW FOR 2016!**  
**BULLY 9.11**

**ALL-ROUND SURF**

Heros are not made every day, but this fun, stable shredder is doing its part to make every day heros in the line up. With a new, smaller version for 2016, the Bully isn't just for the big boys anymore. Wide mid points, extra volume and a pulled in performance tail mean you don't have to sacrifice fun for performance.

**CONSTRUCTIONS & SPECS**

	<b>LENGTH</b> 9'11"	<b>WIDTH</b> 32.0"	<b>THICKNESS</b> 4.5"	<b>VOLUME</b> 165L	<b>WEIGHT</b> 23Lbs 10.5KGS (+/- 10%)

**FINS & FEATURES**

Glass Composite (GC) construction with wood reinforced deck for the best strength to weight and flex characteristics. The board comes equipped with diamond grooved EVA Deck Pad, FCS Fusion compatible / 12K Carbon Three/Four (quad/thruster) fin set, Gore-Tex breather valve, Ergo undercut handle and single surf leash plugs

**BULLY 10.6**

**ALL-ROUND SURF**

With its high volume capacity, wider mid-point, yet pulled-in outline and progressive thruster or optional quad fin set-up, bigger paddlers get the best of stability and shred-ability. The Bully 10.6 gives you carving rail-to-rail surf performance. This is the board that will deliver the performance you want but still provide the platform you need to conserve energy, in choppy conditions and is a breeze to catch waves.

**CONSTRUCTIONS & SPECS**

	<b>LENGTH</b> 10'6"	<b>WIDTH</b> 33.0"	<b>THICKNESS</b> 4.5"	<b>VOLUME</b> 180L	<b>WEIGHT</b> 25Lbs 11.4KGS (+/- 10%)

**NEW FOR 2016!**  
**CARVE 8.6**

**PERFORMANCE SURF**

There is a reason that surfers have quivers. It gives them the right tool to get the job done. And when you are ready punch the clock on some heavy surf, the Carve is the board that will deliver a payday. More pinned out and with less volume than our other surf boards. It should come with a warning, "For those that dare, the road ahead is paved with smiles." Set it up as a thruster or a quad and let this baby run.

**CONSTRUCTIONS & SPECS**

<b>GC</b> GLASS COMPOSITE	<b>LENGTH</b> 8'6" 259.0cm	<b>WIDTH</b> 29.0" 73.6cm	<b>THICKNESS</b> 4.0" 10.16cm	<b>VOLUME</b> 115L	<b>WEIGHT</b> 19Lbs 8.5kgs (+/- 10%)

**FINS & FEATURES**

Glass Composite (GC) construction with wood reinforced deck for the best strength to weight and flex characteristics. The board comes equipped with diamond grooved EVA Deck Pad, FCS Fusion compatible / 12K Carbon Three/Four (quad/thruster) fin set, Gore-Tex breather valve, Ergo undercut handle and single surf leash plugs

**NEW FOR 2016!**  
**CARVE 9.4**

**PERFORMANCE SURF**

Don't call it a comeback! The Carve returns in 2016 for its sophomore release. Back by popular demand, this shredder is geared up for getting down with larger conditions. While the tail is pulled in like the Bully, the reduced volume and smaller width make this the go to for long drawn out carves on the face of the wave and a good bite when things get sizeable. Not for the feint of heart, the Carve is all performance surf.

**CONSTRUCTIONS & SPECS**

<b>GC</b> GLASS COMPOSITE	<b>LENGTH</b> 9'4" 285.0cm	<b>WIDTH</b> 29.0" 73.6cm	<b>THICKNESS</b> 4.0" 10.16cm	<b>VOLUME</b> 125L	<b>WEIGHT</b> 20Lbs 9.0kgs (+/- 10%)

The board comes equipped with diamond grooved EVA Deck Pad, FCS Fusion compatible / 12K Carbon Three/Four (quad/thruster) fin set, Gore-Tex breather valve, Ergo undercut handle and single surf leash plugs

## RECON 9.9

ALL-ROUND SURF

This fun-shape, surf-style board, receives amazing reviews every time someone takes it into the line-up. Whether paddling through the shorebreak, standing outside waiting for your wave or dropping in, the Recon 9.9 does it with style and ease. It performs great down the line on smaller waves due to its full nose and turns great on mid to large size waves as a result of its squash tail. This is a perfect all-round surfboard for light-to-mid-weight surfers.

### CONSTRUCTIONS & SPECS

TW TUFT-WOOD	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
	9'9"	29.5"	4.13"	128L	21lbs
	297.0cm	74.9cm	10.5cm		9.5kgs (+/- 10%)

### FINS & FEATURES

Tough Wood (TW) molded construction with wood reinforced deck for an extremely strong yet lively feel under foot. The board comes equipped with diamond grooved EVA Deck Pad, FCS Fusion compatible / **12K Carbon Three/Four (quad/thruster) fin set**, Gore-Tex breather valve, Ergo undercut handle and single surf leash plugs

## RECON 10.4

ALL-ROUND FITNESS / SURF

The Recon 10.4 is the board that offers stability and performance for nearly any size rider. This board excels in all wave sizes. It tracks well when lining up for the drop and gets moving on the face quickly. It holds nicely in the wave, accelerates down the line and carves and cuts like a knife. If you want to have a blast and look like a pro then the Recon 10.4 is the way to go.

### CONSTRUCTIONS & SPECS

TW TUFT-WOOD	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
	10'4"	31.0"	4.09"	144L	22lbs
	315.0cm	78.7cm	10.4cm		10.0kgs (+/- 10%)

### FINS & FEATURES

Tough Wood (TW) molded construction with wood reinforced deck for an extremely strong yet lively feel under foot. The board comes equipped with diamond grooved EVA Deck Pad, FCS Fusion compatible / **12K Carbon Three/Four (quad/thruster) fin set**, Gore-Tex breather valve, Ergo undercut handle and single surf leash plugs

## RECON 11.4

ALL-ROUND FITNESS / TOURING / SURF

If you subscribe to the 80/20 rule (surf 80% of the time and paddle flat water recreation and fitness the other 20% of the time), then the Recon 11.4 is a great board for you. This board is fun and versatile. The 11.4 is designed for the person that's looking for more of a classic longboard feel. It is longer than the Recon 10.4 so you have performance with great turning capability. Step forward and get toes-on-the-nose with its full, fun shape nose. If the waves are flat, you can still take this Recon for a good flat water cruise.

### CONSTRUCTIONS & SPECS

TW	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
TUFF-WOOD	11'4"	29.5"	4.72"	171L	24Lbs
	345.0cm	74.9cm	12.0cm		10.8kgs (+/- 10%)

### FINS & FEATURES

Tough Wood (TW) molded construction with wood reinforced deck for an extremely strong yet lively feel under foot. The board comes equipped with diamond grooved EVA Deck Pad, cargo net, *U.S. finbox 9.0" Mahi single fin / 12K Carbon*, Gore-Tex breather valve, Ergo undercut handle and single surf leash plugs

## RECON 11.11

ALL-ROUND FITNESS / TOURING / RACE / SURF

The Recon 11.11 is at home in the surf or on the lake. Its running length and generous volume make it a board for the whole family. Inspired by a SIC classic (the Kunalu), which preceded nearly all things SIC, this modern and refined iteration features an intelligent surf outline with a fast rocker profile so it glides well in calm conditions, but can also catch bumps in the ocean or on a lake fetch. If you want an all-round touring cruising board, to try your hand at downwinding or play in the surf, then give the Recon 11.11 is for you. For added reward you can enter your local race, as this board fits the guidelines for the surf class. Basically this board can do it all.

### CONSTRUCTIONS & SPECS

TW	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
TUFF-WOOD	11'11"	31.0"	4.84"	200L	28Lbs
	363.0cm	78.7cm	12.3cm		12.6kgs (+/- 10%)

### FINS & FEATURES

Tough Wood (TW) molded construction with wood reinforced deck for an extremely strong yet lively feel under foot. The board comes equipped with diamond grooved EVA Deck Pad, cargo net, *U.S. finbox 9.0" Mahi single fin / 12K Carbon*, Gore-Tex breather valve, EZ-Grab handle and single surf leash plugs

# AIR-GLIDE SERIES

X-12.6, X-14.0, X-12.6 PRO, X-14.0 PRO, X-12.6 PRO LITE, X-14.0 PRO LITE, FX-11 FUTURE PRO, FX-12.6, FX-14

SIC Inflatables are a notch above the rest. All of our designs are derived from their composite counterpart. This means tested geometry and proven performance translated to inflatable Drop Stitch Construction (DSC) technology. New for 2016 is our Dyneema Stringer Technology (DST). The new DST combined with a double reinforced rail construction and six-inch drop stitch constructions provides the ultimate in rigidity. Rigidity translates to stability, speed and control. DST also helps to maintain a consistent rocker line providing the most streamlined inflatable possible. This new construction coupled with our all new designs, the X12.6 Pro-Lite and the Bullet 14.0 are best in class performance inflatables. We spared no expense in constructing an inflatable range. We transferred our knowledge of high performance rockers and sleek lines to turn your average inflatable into something that will set a new benchmark for inflatable technology.

**Recon 10.4 / Recon 11.4** - This all round fitness board is perfect for cruising the harbor or picking off a few fun ones in the lineup. The Recon series is fun, forgiving and able to handle a wide range of conditions.

**X-12.6 / X-Pro Lite 12.6** - Pump up, stand up, keep up. The X series inflatables are designed with the same flat water characteristics as our award winning X series Composites. Low rocker, sleek water lines and narrow widths mean domination on the race course or just covering more ground touring around. That's a big promise for a board that fits in the trunk of your car.

**Bullet 14** - New for 2016, the Bullet 14 takes a page from the SIC downwind playbook and creates its own class with the first dedicated downwind inflatable. Built to get in and out of troughs, this versatile board is able to handle anything you throw at it. Flat water, open ocean bumps and beach break surf are all in the wheelhouse for this quiver killer. If touring is your game then there is no more better choice.

## AIR-GLIDE RECON 10.4

ALL AROUND / SURF / TOURING

The Recon 10.4 Air-Glide is a super versatile surf / fitness style board. It is also great for SUP Yoga or trying your hand at whitewater SUP. The board is agile, durable and very shreddable. The overall volume works for lightweight riders and will float paddlers in excess of 220 lbs./ 100 kgs. This is a great all around board for cruising, surfing, playing crash-up derby with the family when you are sick of being anchored up the harbor. This board is ready to go out of the box with paddle, fin, backpack and more.

### CONSTRUCTIONS & SPECS

DSC +DST	LENGTH 10'4" 315cm	WIDTH 31.0" 78.7cm	THICKNESS 6.0" 15.24cm	VOLUME 300L	WEIGHT 19.4lbs 8.8kgs (+/- 10%)
-------------	--------------------------	--------------------------	------------------------------	----------------	---------------------------------------

### FINS & FEATURES

(DST) Dyneema stringer technology, ultra durable single layer PVC tarpaulin skin, double reinforced rail construction, high pressure drop stitch construction (DSC) core, two stage pump: dual action to rapidly inflate and single action to bring up to max psi (10 psi min. to 15 psi max), carry handle, coil leash (8x7mm), cargo net, patch kit, wheeiee backpack for easy transport and storage, U.S. finbox compatible / toolless FCS Connect 9.0" fin for quick setup and breakdown

## AIR-GLIDE RECON 11.4

ALL AROUND / SURF / TOURING

This classic longboard style all around surf / fitness board is a great to please the kids, the wife and the wallet. Dad's love all the Air-Glide boards because you can spend the day horsing around you won't have to spend the whole night patching up holes. Even punctures are easy, as the board is equipped with a repair kit if you happen to drop the anchor on it. The Recon 11.4 Air-Glide has a huge range, for riders nearly any weight. At 15 PSI, its super stiff and at 6 inches thick, the volume is abundant, this board can float the whole family.

### CONSTRUCTIONS & SPECS

DSC +DST	LENGTH 11'4" 345cm	WIDTH 30.0" 76.2cm	THICKNESS 6.0" 15.24cm	VOLUME 310L	WEIGHT 21lbs 9.6kgs (+/- 10%)
-------------	--------------------------	--------------------------	------------------------------	----------------	-------------------------------------

### FINS & FEATURES

(DST) Dyneema stringer technology, ultra durable single layer PVC tarpaulin skin, double reinforced rail construction, high pressure drop stitch construction (DSC) core, two stage pump: dual action to rapidly inflate and single action to bring up to max psi (10 psi min. to 15 psi max), carry handle, coil leash (8x7mm), cargo net, patch kit, wheeiee backpack for easy transport and storage, U.S. finbox compatible / toolless FCS Connect 9.0" fin for quick setup and breakdown

## AIR-GLIDE X12.6

FLAT WATER RACE / TOURING

Sharing basically the same dimensions of the X-12 SCC/TWC composite boards, this touring / fitness / race board is perfect for family fun, fitness and for competing in the 12'6" inflatable race class. The X-12.6 Air-Glide is the stiffest board in its class at 15 psi. While this board is a great recreational fun, we are also confident that it is also one of the fastest race board in its class. The low drag fin make this board fast or with the U.S. finbox, which is standard on all SIC Air-Glide inflatables, you can put any fin on you like.

### CONSTRUCTIONS & SPECS

DSC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
DEEP STITCH CONSTRUCTION +HOST	12'6" 381cm	30.0" 76.2cm	6.0" 15.24cm	330L	21.6lbs 9.8kgs (+/- 10%)

(DST) Dyneema stringer technology, ultra durable single layer PVC tarpaulin skin, double reinforced rail construction, high pressure drop stitch construction (DSC) core, two stage pump: dual action to rapidly inflate and single action to bring up to max psi (10 psi min. to 15 psi max), carry handle, coil leash (8'x 7mm), cargo net, patch kit, wheelee backpack for easy transport and storage, U.S. finbox compatible / toolless FCS Connect 9.0" fin for quick setup and breakdown

## AIR-GLIDE X12.6 PRO LITE

NEW FOR 2016!

FLAT WATER RACE / TOURING

Show up, pump up, keep up. Introducing the fastest, lightest and stiffest inflatable raceboard on the market. Crafted from the same pedigree as it's SCC brother, the all-new Air Glide X-12.6 Pro Lite features water shearing lines, a low profile displacement hull design and race handles for beach starts and finishes. Dyneema Stringer Technology provides unparalleled rigidity through the bow and center lines of the board. This board will be a frequent face on the podium of the inflatable class in 2016.

### CONSTRUCTIONS & SPECS

DSC	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
DEEP STITCH CONSTRUCTION +HOST	12'6" 381cm	24.75" 62.8cm	6.0" 15.24cm	280L	19lbs 8.6kgs (+/- 10%)

(DST) Dyneema stringer technology, ultra durable single layer PVC tarpaulin skin, double reinforced rail construction, high pressure drop stitch construction (DSC) core, two stage pump: dual action to rapidly inflate and single action to bring up to max psi (10 psi min. to 15 psi max), carry handle, coil leash (8'x 7mm), cargo net, patch kit, wheelee backpack for easy transport and storage, U.S. finbox compatible / toolless FCS Connect 9.0" fin for quick setup and breakdown

**NEW FOR 2016!**

# AIR-GLIDE BULLET 14.0

**OPEN WATER RACE / TOURING**

At the very core of SIC lies the DNA of Downwinding. There is something magical about feeling the board release and pick up the momentum of the sea during a downwind run, but not everyone has room to store a 17.4 Bullet Unlimited at their place. Meet the new kid in the parking lot at Maliko Gulch (and he came on a mountain bike and he's taking the bus back after the run). The Air Glide Bullet 14.0 packs all of the SIC downwind know how into one, convenient and competitive package.

**CONSTRUCTIONS & SPECS**

DSC TOP LAYER CONSTRUCTION +DST	LENGTH 14'0"	WIDTH 28.5"	THICKNESS 6.0"	VOLUME 340L	WEIGHT 25Lbs
	426.7cm	72.4cm	15.24cm		11.3Kgs (+/- 10%)

**FINS & FEATURES**

**(DST) Dyneema stringer technology**, ultra durable single layer PVC tarpaulin skin, double reinforced rail construction, high pressure drop stitch construction (DSC) core, two stage pump: dual action to rapidly inflate and single action to bring up to max psi (10 psi min. to 15 psi max), carry handle, coil leash (8x7mm), cargo net, patch kit, wheelie backpack for easy transport and storage, U.S. finbox compatible / toolless FCS Connect 9.0" fin for quick setup and breakdown

# PADDLES

To make a paddle that is just as technical and fast as SIC boards takes countless hours of design, R and D and testing. For 2016, we have reinvented our paddle line by focusing on the details so you do not have to think about them. New features for this year are ergonomic handle and shaft shapes, a completely new Battle Paddle, patented Lever Lock™ adjustable technology in 2 and 3 piece designs, new adjustable youth paddles and all of this with our slick, new paddle designs.

## NEW FOR 2016

# FLOW SERIES

FLOW 9.6 GCI, FLOW 9.6 FCI, FLOW 10.6 GCI, FLOW 10.6 FCI, FLOW 11.6 GCI, FLOW 11.6 FCI, FLOW 9.6 INFLATABLE, FLOW 10.6 INFLATABLE, FLOW 11.6 INFLATABLE

Five Star Performance means the best in class in everything that we do. New for 2016 is the Flow Series of boards created with the beginner paddler in mind. Generous volumes and increased widths mean fun that is accessible for the entire family. Great for a paddle in the harbor or a rip in the surf, these versatile rental boards will be ideal for your resort / rental fleet. Our rental FLOW boards are built SIC tough. Our Glass Composite Innegra (GCI) and Foam Composite Innegra (FCI) boards feature Innegra™ in the layup from “tip-to-tail and rail-to-rail” Unheard of at this price point; these boards will outlast the toughest impacts and stay watertight far beyond a traditional layup. Innegra™ takes impact, but does not shatter. This prevents the EPS core of your board from being exposed and soaking up water. Our FCI foam top boards feature a layer of high quality EVA from the top deck to the bottom tuck of the rails. Built to withstand use and abuse these boards also add another layer of safety. Lastly, our FLOW inflatables are the do anything, go anywhere boards featuring a reinforced Stringer Support Technology (SST) adding stiffness, stability and consistent rockerlines to complement our 6” Drop Stitch Construction (DSC).

**“THE ALL NEW FLOW LINEUP IS AN UNPRECEDENTED OFFERING FOR A RENTAL AND FLEET PADDLEBOARD SOLUTION”**

**ALL FLOW BOARDS COME WITH FCS CONNECT 9.0” TOOL-LESS SINGLE FIN** Snap in, snap out...It’s that easy and fast. It also offers unprecedented low stacking when space is at a premium, which is always.

## GLASS COMPOSITE INNEGRA™

**FLOW GCI** Our Glass Composite w/ *Innegra™* technology boards are perfect for the beginner and intermediate paddler. If you are looking for fun and versatility, and the ultimate in durability then this board is the perfect place to start.

- High quality 360 degree wrapped *Innegra™* construction withstands impacts and keeps your boards on the water and out of dry dock for ding repair.
- High strength tow hook under the nose for mooring, towing or storage of boards.
- Color coded by size for all FLOW boards. Easily identifiable in storage or on the water.

*Innegra™* WRAP DECK, RAIL AND BOTTOM

## FOAM COMPOSITE INNEGRA™

**FLOW FCI** Foam Composite w/ *Innegra™* are wrapped on the bottom and rails. High density EVA wrapped deck and rail means this board is perfect for the first timer and will withstand the wear and tear promotes durability and safety.

- High quality *Innegra™* bottom and rail construction withstands impacts and keeps your boards on the water and out of dry dock for ding repair.
- High strength tow hook under the nose for mooring, towing or storage of boards.
- Color coded by size for all FLOW boards. Easily identifiable in storage or on water.

*Innegra™* WRAP RAIL AND BOTTOM

## DROP STITCH CONST. + STRINGER SUPPORT

**FLOW Inflatable** The ultimate in versatility and portability. If SUP is your new hobby but storing large boards is not, our FLOW inflatable is the perfect solution for the first time paddler. Featuring reinforced stringers in the bow of the board for rigidity/speed and a drop stitch construction, these boards will rival the best inflatables on the market.

- High strength tow hook under the nose for mooring, towing or storage of boards.
- Color coded by size for all FLOW boards. Easily identifiable in storage or on water.

STRINGER SUPPORT TECHNOLOGY (SST)

### RECREATION / FLEET

**FLOW 2 PC ADJ. W / LEVER LOCK™ ADJ. HANDLE, 90 SQ. IN. BLADE**

**FLOW 3 PC ADJ. W / LEVER LOCK™ ADJ. HANDLE, 90 SQ. IN. BLADE**

FLOW 2 and 3 piece paddle systems featuring LeverLock™ for the ultimate in adjustability. FLOW paddles also come with a highly durable CRFT Blade (polyethylene infused fiberglass) to withstand impact and daily punishment.

## FLOW 9.6 GCI

ALL AROUND / SURF / TOURING

The FLOW 9.6 was designed with the smaller paddler in mind. It is perfect for the kids or a smaller female paddler. They will be able to focus on technique instead of trying to muscle Dad's board around the harbor. As with all FLOW FCI boards, this the GCI has the wide point moved forward for easy planing, better stability and glide. The Innegra™ layup makes these boards the ultimate in durability.

### CONSTRUCTIONS & SPECS

GCI	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
	9'6"	28.0"	4.8"	155L	25Lbs
	289.6cm	71.1cm	11.43cm		12kgs (+/- 10%)

### FINS & FEATURES

Innegra™ tip-to-tail and rail-to-rail (bottom, rails and deck) for bomber durability, glass reinforced deck, diamond groove EVA deck pad, ergo undercut handle, cargo net, coil leash (8 x 7mm), surf leash plug and towing nose plug, Gore-Tex breather valve, U.S. finbox compatible / toolless FCS Connect 9.0" fin for quick setup, breakdown and low stacking capabilities

## FLOW 9.6 FCI

ALL AROUND / SURF / TOURING

The FLOW 9.6 FCI is the same as its GCI and DSC counterparts having kids or a smaller female paddler in mind. As with all FLOW FCI boards, it features a high quality, high density EVA wrapped deck and rails to protect the paddler as well as the board. We finish it off with a layer of Innegra™ on the bottom and rails for added durability.

### CONSTRUCTIONS & SPECS

FCI	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
	9'6"	28.0"	4.5"	155L	22Lbs
	289.6cm	71.1cm	11.43cm		10kgs (+/- 10%)

### FINS & FEATURES

Innegra™ tip-to-tail and rail-to-rail (bottom and rails) for bomber durability, glass reinforced deck, diamond groove EVA deck pad, full EVA top decking to the bottom rail, ergo undercut handle, cargo net, coil leash (8 x 7mm), surf leash plug and towing nose plug, Gore-Tex breather valve, U.S. finbox compatible / toolless FCS Connect 9.0" fin or quick setup, breakdown and low stacking capabilities

## FLOW 10.6 GCI

### ALL AROUND / SURF / TOURING

If there is a yearbook award in 2016 for "Most Likeable", then FLOW 10.6 is the Ferris Bueller of boards. Along with the Flow 11.6, this 10.6 is one of the widest board in the line. It is the go to board for anyone getting into SUP or if you tend to have a board that you like to share with the whole family. It is a wide stable platform that does not skimp on the performance. Process and puts you out on the water. The Innegra™ layup makes these boards the ultimate in durability.

#### CONSTRUCTIONS & SPECS

GCI	LENGTH 10'6"	WIDTH 34.0"	THICKNESS 4.8"	VOLUME 210L	WEIGHT 31Lbs 14kgs (+/- 10%)
	320cm	86.40cm	11.43cm		

#### FINS & FEATURES

Innegra™ tip-to-tail and rail-to-rail (bottom, rails and deck) for bomber durability, glass reinforced deck, diamond groove EVA deck pad, ergo undercut handle, cargo net, coil leash (8'x 7mm), surf leash plug and towing nose plug, Gore-Tex breather valve, U.S. finbox compatible / toolless FCS Connect 9.0" fin or quick setup, breakdown and low stacking capabilities

## FLOW 10.6 FCI

### ALL AROUND / SURF / TOURING

The FLOW 10.6 FCI is the brother to the GCI. This board provides unrivaled stability and performance for the beginner to advanced paddler. Like the rest of the FCI range, this board features a high quality, high density EVA wrapped deck and rails to protect the paddler as well as the board. We finish it off with a layer of Innegra™ on the bottom and rails for added durability.

#### CONSTRUCTIONS & SPECS

FCI	LENGTH 10'6"	WIDTH 34.0"	THICKNESS 4.5"	VOLUME 210L	WEIGHT 29Lbs 13kgs (+/- 10%)
	320cm	86.40cm	11.43cm		

#### FINS & FEATURES

Innegra™ tip-to-tail and rail-to-rail (bottom and rails) for bomber durability, glass reinforced deck, diamond groove EVA deck pad, full EVA top decking to the bottom rail, ergo undercut handle, cargo net, coil leash (8'x 7mm), surf leash plug and towing nose plug, Gore-Tex breather valve, U.S. finbox compatible / toolless FCS Connect 9.0" fin or quick setup, breakdown and low stacking capabilities

## FLOW 11.6 GCI

ALL AROUND / SURF / TOURING

At 209L of volume, the FLOW 11.6 is enough fun for one person, but that would be selfish, would it not? SUP should be shared, so go ahead... grab the dog and your third grader and hit the water. There is plenty of room on this pleasure cruiser. For the larger paddler or those with aspirations to race the surf class, this little gem gets it done.

### CONSTRUCTIONS & SPECS

GCI	LENGTH	WIDTH	THICKNESS	VOLUME	WEIGHT
	11'6"	34.0"	4.8"	230L	34Lbs
	350.5cm	86.40cm	11.43cm		15.5kgs (+/- 10%)

### FINs & FEATURES

Innegra™ tip-to-tail and rail-to-rail (bottom, rails and deck) for bomber durability, glass reinforced deck, diamond groove EVA deck pad, ergo undercut handle, cargo net, coil leash (8'x 7mm), surf leash plug and towing nose plug, Gore-Tex breather valve, U.S. finbox compatible / toolless FCS Connect 9.0" fin or quick setup, breakdown and low stacking capabilities

## FLOW 11.6 FCI

ALL AROUND / SURF / TOURING

At 209L of volume, the FLOW 11.6 is enough fun for one person, but that would be selfish, would it not? SUP should be shared, so go ahead... grab the dog and your third grader and hit the water. There's plenty of room on this pleasure cruiser. For the larger paddler or those with aspirations to race the surf class, this little gem gets it done. As with all FLOW FCI boards, it features a high quality, high density EVA wrapped deck and rails to protect the paddler as well as the board. Innegra™ tip-to-tail and rail-to-rail (bottom and rails) for bomber durability, glass reinforced deck, diamond groove EVA deck pad, full EVA top decking to the bottom rail, ergo undercut handle, cargo net, coil leash (8'x 7mm), surf leash plug and towing nose plug, Gore-Tex breather valve, U.S. finbox compatible / toolless FCS Connect 9.0" fin or quick setup, breakdown and low stacking capabilities

# FLOW INFLATABLES

## FLOW 9.6 AIR

## FLOW 10.6 AIR

## FLOW 11.6 AIR

ALL AROUND / SURF / TOURING

ALL AROUND / SURF / TOURING

ALL AROUND / SURF / TOURING

The FLOW Inflatable series is the inflatable alternative to the GCI and FCI versions of the FLOW 9.6, 10.6 and 11.6. With all of the same attributes of our Air Glides, but more generous volumes, the FLOW inflatables are a stable and economical first step in your SUP career. New for 2016 is SIC's Stringer Support Technology (SST) which, provides structure and rigidity to the board when inflated, but collapses and folds to store inside of a backpack. Who knew SUP could be this easy and fun?

### 9.6 CONSTRUCTIONS & SPECS

DSC	LENGTH	WIDTH	THICKNESS
	9'6"	29.5"	6.0"
	289cm	75cm	15.24cm
